ELECTION

Dear Sir:

In accordance with the Restriction Requirement of January 10, 2007, applicants elect without traverse the species of Group I. Claims 1-8, 11-17 and 21-24 are readable generically or specifically on that elected species. In the Restriction Requirement Examiner Guidotti indicated that claim 25 and its dependent claim 29 are generic. It is noted, however, that parent claim 25 includes the features of a container and flow regulating structure at the dispensing opening to dispense cleaning solution from the container. Based upon Examiner Guidotti's summary of what each of the groups correspond to, it appears that claims 25 and 29 would be generic to Groups IV and V, but possibly not to Group I.

-1-

If, however, Examiner Guidotti considers claims 25 and 29 to be generic to Group I, then those claims should also be included for examination purposes.

Respectfully Submitted,

By:
